

# INFORMATION

*Become a student  
of WSEI University*

**WSEI University**

# OVER *24 years* WE CARRY OUT OUR RESPONSIBILITIES WITH GREAT PRIDE

## BEGINNINGS

WSEI University was established under the permission of the Ministry of National Education dated October 24, 2000 and entered in the register of the Ministry of Science and Higher Education of non-public universities and the association of non-public universities under the number 196. The founder of the University is the Polish Foundation of Centers for Support of Economic Development "OIC Poland", which is the private non-governmental organization, based in Lublin. The Foundation was established in 1991 as the initiative of members of the local society, who were interested in stimulating socio-economic development of Lublin Region.

## ACHIEVEMENTS

We strongly believe that educational activity of our University will bring an immense impact on the development of career opportunities for our students for the benefit of Lublin Region. We are very proud of the position that WSEI University has achieved over the past years. We cannot think about those achievements without mentioning the people who contributed to creating its structures from the beginning and are still committed to it nowadays.

WSEI University is the only non-public university, the only non-public university in Poland, which has successfully passed the EUA-IEP evaluation process and is among the six Polish universities that have so far undergone this international evaluation procedure.

## OUR MISSION

WSEI's mission is to prepare highly qualified specialists who will be able to meet European standards, and then strengthen the human resources capacity and increase the potential of local government institutions in public financial management, strategic planning or absorption and management of EU funds. In the context of economic development of the region those mentioned areas of activities are the key challenges that the public and private sector is to face in the next few years.

## EDUCATION

We owe our success mainly to a high level of education, which combines academic knowledge with a close relationship and practice of socio-economic life, which is very rare among higher schools. The high level of educational process is maintained by a diligently selected didactic staff with proper academic degrees and necessary academic experience. A great part of the staff has also significant practical experience derived from their non-academic activity. Such an excellent team is a guarantee of a high level of education relating to economic realities of our region, meeting the EU requirements.

## UNIVERSITY AUTHORITIES

**Teresa Bogacka, MA**  
CHANCELLOR  
OF WSEI UNIVERSITY

**Prof. Marek Opielak**  
RECTOR  
OF WSEI UNIVERSITY

## VICE-RECTORS

**Tomasz Wołowiec,**  
Ph.D., assoc. prof.  
VICE-RECTOR FOR SCIENCE  
AND INTERNATIONAL  
COOPERATION

**Mariusz Paździor,**  
Ph.D., assoc. prof.  
VICE-RECTOR FOR EDUCATION  
AND STUDENT MATTERS

**SYLWESTER BOGACKI,**  
Ph.D., assoc. prof.  
VICE-RECTOR FOR DEVELOPMENT  
AND STRATEGY

## DEANS

**Artur Dmowski,**  
Ph.D., assoc. prof.  
DEAN OF THE FACULTY  
OF TRANSPORT  
AND COMPUTER SCIENCES

**Ph.D. in Health Science**  
**Zbigniew Orzeł, assoc. prof.**  
DEAN OF THE FACULTY  
OF HUMAN SCIENCES

**Łukasz Wojciechowski,**

ERASMUS+ higher education mobility action supports physical and blended mobility of higher education students in any study fields and cycle (short cycle, bachelor, master and doctoral levels). Students can either study abroad at a partner higher education institution or carry out a traineeship in an enterprise, a research institute, a laboratory, an organisation or any other relevant workplace abroad. Students can also combine a study period abroad with a traineeship, further enhancing the learning outcomes and development of transversal skills.

University offers the ERASMUS + scholarships for students, who finished min. 1 year of study programme and for graduates who are interested to experience the mobility exchange in any other country of the European Union. Students can apply for:

- × **STUDIES** – a semester or a year at a university;
- × **INTERNSHIPS** – from min 2 months up to 12 months during the study programme

### BENEFITS OF THE STUDENTS' EXCHANGES:

- × Learning or improving foreign language
- × Getting to know other cultures and countries
- × Building business contacts and networks
- × Increasing employment opportunities in the home country or abroad
- × Development of skills such as: adaptation to new conditions, problem solving, creativity
- × Experiencing a different style of teaching or work
- × The opportunity to meet new people and explore new places

**Erasmus+**  
Enriching lives, opening minds.

*During the Erasmus + perspective 2014-2020 over 120 WSEI University students have participated in Erasmus + exchange programme.*

Field of  
study

# COMPUTER SCIENCE

## INNOVATIVE EDUCATION AND MODERN OFFER

### THE ADVANTAGES OF THE FIELD OF STUDY

- ★ The degree in Computer Science is recognized in all EU countries
- ★ Computer Science is one of the most popular and frequently chosen fields
- ★ Classes are conducted in the Cybersecurity Laboratory, Network Services Security Laboratory, Audio-Video Recording and Multimedia Applications Realization Laboratory, IP Network Services Laboratory, Audiovisual Systems and Multimedia Technologies Laboratory
- ★ For training, professional equipment and software are used, including: a specialized training tool of the CyberRange class, the so-called "training ground" developed by experts advising EU and NATO security structures, a modern fully equipped laboratory with the possibility of physical division into two zones Blue team and Red Team, Forensic Team
- ★ Exercises, conferences, meetings and trips dedicated to improving students' competencies are carried out in cooperation with the National Center for Cybersecurity (a unit of the Ministry of Defense)
- ★ Students undergo internships during their studies: bachelor degree - 9 months, master's degree - 3 months
- ★ Classes are taught by distinguished professors in the field of Computer Science and practitioners with many years of experience working in IT companies so you are guaranteed to learn and study on professional tools such as Cisco Packet Tracer, Nod Endpoint Security, Microsoft SQL Server, Oracle Database, Power BI, WordPress or Android Studio
- ★ The majority of practical classes are held in the form of computer labs
- ★ Due to cooperation with large companies related to the IT industry, such as Asseco Data Systems, students have the opportunity for attractive internships and work experience
- ★ Candidates for studies who have documented work experience have the opportunity to submit documents confirming this experience during recruitment and apply for recognition of learning outcomes for selected modules, including the practical module (work experience)

## SPECIALIZATIONS

### BACHELOR OF ENGINEERING STUDIES (7 semesters)

- ★ SOFTWARE ENGINEERING AND MOBILE TECHNOLOGIES
- ★ CYBERSECURITY AND NETWORK TECHNOLOGIES

### MASTER STUDIES (4 semesters)

- ★ CYBERSECURITY
- ★ PROGRAMMING AND DATA ANALYSIS
- ★ DIGITAL TECHNOLOGIES IN BUSINESS

AS A GRADUATE OF THE FIRST DEGREE PROGRAM, YOU CAN CONTINUE YOUR EDUCATION IN THE SECOND DEGREE PROGRAM AT WSEI UNIVERSITY, IN THE FOLLOWING MAJORS:

1

### COMPUTER SCIENCE II°

SPECIALIZATIONS:  
CYBERSECURITY,  
PROGRAMMING AND DATA ANALYSIS,  
DIGITAL TECHNOLOGIES IN BUSINESS

2

### MANAGEMENT II°

SPECIALIZATIONS:  
MARKETING AND SALES MANAGEMENT

*Specialties in the majors are launched depending on the interest of students.*

## QUALIFICATIONS AND SKILLS ACQUIRED

### After graduation, you will:

- ★ Have knowledge and skills in software engineering, selection of development environments and tools for design, implementation and testing of information systems, including web applications.
- ★ Design, implement and manage modern multimedia applications, including those operating in various areas of ICT service delivery.
- ★ Design, implement and maintain computer networks and computer/IT systems with particular attention to their security.
- ★ Analyze how computer and network systems function and diagnose these systems using available software and hardware tools.
- ★ Create cybersecurity for information systems and know the principles of ensuring the cybersecurity of companies and enterprises.
- ★ Explore and extract business-relevant key metrics from data and be able to leverage digital technologies in business.
- ★ Be able to analyze data in professional analytical tools.
- ★ Be prepared to obtain industry certifications.

### CYBERSECURITY LAB

is the most modern and only laboratory of its kind in eastern Poland. The Laboratory includes training and technical projects.

## Work and career

- ★ Database systems administrator
- ★ Data Analyst
- ★ Information Security Analyst
- ★ Financial and insurance institutions, especially where BI-class analytical systems are used
- ★ Security engineer
- ★ Data engineer
- ★ Software engineer
- ★ IT manager in government offices and institutions
- ★ Mobile application developer
- ★ Software programmer
- ★ Security systems developer
- ★ Computer systems developer
- ★ IT specialist
- ★ Computer systems and networks security specialist
- ★ Information systems tester
- ★ Information systems implementer
- ★ Web developer

Field of  
study

# NURSING

## ★ Study Nursing at the WSEI University Branch in Warsaw!

### INNOVATIVE EDUCATION AND MODERN OFFER

#### THE ADVANTAGES OF THE FIELD OF STUDY

- ★ The degree in Nursing is recognized in all EU countries
- ★ The primary goal of education in the field of Nursing is to educate highly qualified nursing professionals who, thanks to their broad knowledge with special emphasis on knowledge of health sciences as a leading discipline, and knowledge of medical sciences, will be a competitive, desirable and fully independent medical staff fulfilling their professional function in the health care system
- ★ Practical study programs are tailored to the tasks graduates are expected to perform at work
- ★ Students in the course of their studies undergo professional practice in accordance with specializations
- ★ Teaching of subjects in the form of lectures, conversation classes, exercises and practical classes is carried out by highly qualified scientific and teaching staff
- ★ In the bachelor's degree program, the student writes a thesis and defends it at the diploma exam, which also includes a practical part (according to the educational standards)
- ★ Cooperation with many health institutions
- ★ Classes are conducted in the Monoprofile Medical Simulation Center. This laboratory, dedicated only to this field of study, allows for the highest quality of studies
- ★ Studies are also carried out at the Warsaw Branch of WSEI University
- ★ Candidates for studies who have documented work experience have the opportunity to submit documents confirming this experience during recruitment and apply for recognition of learning outcomes for selected modules, including the practical module (work experience)

## MODE OF STUDY

### ★ BACHELOR STUDIES (6 semesters)

#### BRANCH OFFICE OF THE WSEI UNIVERSITY

The new WSEI University branch in Warsaw is ready to welcome the first students taking up Nursing studies in Polish and English.

The headquarters of the WSEI University's Warsaw Branch is a modern building situated in the very center of the city.

The WSEI University has a didactic base and infrastructure in Warsaw that ensures the full realization of the learning outcomes planned in the curriculum for the course of study in the field of NURSING, which includes lecture halls, teaching rooms, IT labs, language labs, and especially the nursing skills lab. Practical classes and internships will take place in healthcare providers, such as hospitals, health centers, health care facilities.

#### MONOPROFILE MEDICAL SIMULATION CENTER:

*Replicated hospital rooms, phantoms and a whole range of specialized medical equipment at a cost of more than 3 million PLN allow nursing students to verify their skills in practice and to prepare to work with real patients before entering a hospital ward. During the classes, students practice based on lesson scenarios prepared by academics who, during the simulation, observe the work and behavior of students from behind a one-way mirror.*

## QUALIFICATIONS AND SKILLS ACQUIRED

### After graduation, you will:

- ★ Provide services in accordance with current medical knowledge in the field of health promotion, health maintenance and disease prevention.
- ★ Provide nursing care for the sick, disabled and dying.
- ★ Work in accordance with the principles of professional ethics, respecting and upholding the rights of the patient.
- ★ Communicate in the workplace, organize own work, establish collaboration in health care teams, and initiate and support community health activities.
- ★ Prescribe drugs and certain medical devices in accordance with applicable laws and regulations, and professionally approach the marketing strategies of the pharmaceutical industry.

## Work and career

- ★ Units of the emergency medical system
- ★ Palliative and hospice care centers
- ★ Teaching and educational institutions
- ★ Medical establishments
- ★ Sanatoriums
- ★ Hospitals
- ★ Software engineer
- ★ Universities, scientific and research centers
- ★ Care and treatment facilities
- ★ Nursing and personal care facilities
- ★ Primary health care facilities

Field of  
study

# MANAGEMENT

## INNOVATIVE EDUCATION AND MODERN OFFER

### THE ADVANTAGES OF THE FIELD OF STUDY

- ★ The degree in Management is recognized in all EU countries and does not require nostrification
- ★ Practical study program adapted to the needs of the labor market
- ★ Students undergo internships during their studies: bachelor's degree - 6 months, master's degree - 3 months
- ★ The classes are taught by practitioners who, on a daily basis, run large companies
- ★ 2, maximum 3 exams per semester
- ★ The university cooperates with external entities on the basis of signed agreements. As a result, employers co-create the study program, give substantive support, report their needs and requirements for future employees. This gives confidence that the acquired competencies will be useful in professional work
- ★ The University periodically organizes business workshops, training courses, meetings with parties that help in receiving funding when starting their own business activities
- ★ Due to cooperation with companies, students have a chance for interesting internships, apprenticeships, jobs
- ★ **2 DIPLOMAS IN 2 YEARS:** Second-degree students have the opportunity to take advantage of combining a master's degree with postgraduate studies: "Modern Human Resource Management". Master's and postgraduate programs complement each other. Graduates receive two diplomas: 1. completion of a master's degree and 2. completion of postgraduate studies
- ★ Candidates for studies who have documented work experience have the opportunity to submit documents confirming this experience during recruitment and apply for recognition of learning outcomes for selected modules, including the practical module (work experience)

## SPECIALIZATIONS

### BACHELOR DEGREE (6 semesters)

- ★ BUSINESS MANAGEMENT
- ★ MANAGEMENT IN SPORTS AND RECREATION

- ★ Be able to conduct physiotherapy in sports injuries.
- ★ Diagnose and conduct physiotherapy for children with postural defects.
- ★ Prepare for independent practice as a physiotherapist from diagnosis to planning and conducting the physiotherapy process.

## Work and career

- ★ Nursing homes
- ★ Hospices
- ★ Institutions for guidance and dissemination of knowledge in medical science, health sciences
- ★ Clinics, rehabilitation departments
- ★ Centers for the disabled
- ★ Sports, recreation centers
- ★ Running your own physiotherapy practice
- ★ Public and non-public health care facilities
- ★ Hospitals and spa sanatoriums for children and adults
- ★ Community care for the sick at home
- ★ Wellness & SPA
- ★ Rehabilitation, care, nursing facilities

## GENERAL CONDITIONS OF STUDYING

### ORGANIZATION OF THE ACADEMIC YEAR

The academic year begins on 1<sup>st</sup> of October and ends on 30<sup>th</sup> of June. It is divided into two semesters: winter and spring. Both semesters end with a 2-week examination session, during which no classes are held. If there is no positive evaluation of the exam, the student has the right to retake the exam, during the 2 weeks retake session. From 30<sup>th</sup> of June to 30<sup>th</sup> of September, students have the holiday break.

#### IN THE ACADEMIC YEAR, THERE ARE TWO HOLIDAY BREAKS:

- in the Winter Semester – CHRISTMAS HOLIDAY (end of December)
- in the Spring Semester – EASTER HOLIDAY (spring – movable feast)

## Types of studies

### 5-year MASTER STUDIES

- ✦ The program lasts for 10 semesters
- ✦ Studies end with the preparation and defense of a Master's thesis
- ✦ Achieved academic title: Master

### First cycle studies (BACHELOR/ ENGINEERING)

- ✦ The program lasts 6 (bachelor's) or 7 (engineering) semesters
- ✦ Studies are held as a full-time or extramural studies
- ✦ Studies end with the preparation and defense of a Bachelor or Engineer's thesis
- ✦ Achieved academic title: Bachelor or Engineer

### Second cycle studies (MASTER)

- ✦ Designed for graduates of first cycle studies (Bachelor and Engineering)
- ✦ Second cycle studies for graduates of first cycle studies (Bachelor's) last 4 semesters
- ✦ Second cycle studies for graduates of first cycle studies (Engineering) last 3 semesters
- ✦ Studies are held as a full-time or extramural studies
- ✦ Studies end with the preparation and defense of a Master's thesis
- ✦ Achieved academic title: Master

## Form of study

### PRACTICAL PROFILE OF STUDIES

The advantage of the university is a strong link between didactic activities and business practice. WSEI University constantly rebuilds its programs and forms of education, adapting them to the needs of employers. Curricula are prepared together with the practitioners of economic and social life. These practitioners also conduct workshops for students. The university has signed numerous agreements with strategic partners, i.e. institutions and companies where students can have their practices, and from which practitioners to conduct classes with students are recruited.

Strategic Partners also participate in the education of students WSEI University by organizing apprenticeships and internships for graduates. Students, three times throughout the course of education (after I, II and III year), hold a 15-week paid internship/training (for students, who are not employed) in the chosen company. Due to this, WSEI University is able to practically prepare its graduates to properly perform their work after graduation.

### MODULAR ORGANIZATION OF STUDY

Instead of traditional subjects, WSEI University has introduced modules into its educational program. Modules are implemented through active forms of teaching which are important in the process of building the competencies and skills. Modular studies allow to acquire competencies in many fields and use gained knowledge. Such studies also allow to make contact with the employer, become familiar with market realities, and to shape the path of study in a flexible way. Each module consists of five components:

1. **LECTURES** – aimed at conveying and organizing of necessary theoretical knowledge.
2. **CLASSES** – aimed at learning how to use theoretical knowledge in practice.
3. **E-LEARNING** – allows students to supplement and extend part of the course, solve tasks and tests anytime and anywhere with Internet access.
4. **WORKSHOPS WITH THE PARTICIPATION OF EMPLOYERS** – allows students to become familiar with the working environment. Classes carried out both in companies and in university.
5. **OWN WORK** – aimed at acquisition and perfection of the competences through the individual and group projects.

### TERMS OF SUCCESSFUL GRADUATION

- \* participation in classes
- \* positive exam outcomes
- \* preparation and defense of a thesis

## ADMISSION RULES

★ **ONLINE ADMISSION**  
*[studyenglish@eiu.edu.pl](mailto:studyenglish@eiu.edu.pl)*

*Step 1*

★ **BRANCH OFFICE OF THE WSEI UNIVERSITY**  
*[rekrutacja.warszawa@wsei.eu](mailto:rekrutacja.warszawa@wsei.eu)*

### **DOCUMENTS REQUIRED FOR RECRUITMENT**

- ✗ A copy of maturity certificate or/and Secondary School Certificate issued abroad, which entitles to apply for admission to higher education institution in the country of issue
- ✗ Copy of the first page of the passport
- ✗ A medical certificate confirming that there are no contraindications to study on the chosen field of studies
- ✗ \*FOR MASTER STUDIES: see 1 and copy of the first cycle graduate diploma and the supplement
- ✗ Language proficiency certificate B2/ language certificate issued by the educational institution stating that English is a medium of instruction and examination

# Your Admission Guide

**DOCUMENT FOR RECRUITMENT**

[www.rekrutacja.wsei.lublin.pl/en](http://www.rekrutacja.wsei.lublin.pl/en)

On this page you'll find step-by-step application instructions to apply to WSEI University. Follow the instructions below to apply as a first-year student.

## Step 2

- ✗ After receiving the offer letter, read it carefully to find out about the required documents, accommodation, and extra expenses
- ✗ Pay the enrolment fee of 150 EURO and the tuition fee in order to complete the submission of your application
- ✗ The transfer title must contain the FULL NAME of the Applicant

## Step 3

Wait for the documents which are necessary to apply for a Visa. They will be issued once the payment is confirmed by the accounting department. These documents include

- ✗ The Final Acceptance Letter
- ✗ The Recommendation Letter to the Polish Embassy
- ✗ The Certificate of Enrollment

## Step 4

### Welcome to the WSEI University!

When you arrive to Poland, please make sure that you have the originals of the required documents, because you will need to submit them. If you have any questions concerning admission procedure please contact [studyenglish@eiu.edu.pl](mailto:studyenglish@eiu.edu.pl)

In addition, within 30 days of admission, student has to present an health insurance and accident insurance for the entire period of study in Poland, or a European Health Insurance Card, or sign an insurance agreement with the National Health Fund.

## COMFORT OF STUDY

### ONE OF THE MOST RECOGNISED NON-PUBLIC EDUCATIONAL INSTITUTION OF EASTERN POLAND.

We have gained considerable prestige and received national awards for innovation and responsiveness to labor market needs.

## PROFESSIONAL STAFF

Teaching staff, composed of highly qualified academic and didactic staff, as well as high class professionals, business practitioners who are eager to share their EXPERIENCE gained in reputable companies and institutions, ensures a high level of teaching in combination with the economic realities of our region, Poland and Europe.

## WE SUPPORT YOUR PROFESSIONAL DEVELOPMENT

WSEI University offers you scholarship programs, internships or international projects. A good organization of studies and a practical education profile make it easier for students of WSEI to combine their studies and work and personal life. As a result, people who work most often prefer to study at WSEI and students do not hesitate to undertake a job while studying.

## STUDENT'S LIFE

University fosters the conditions of the student's personal development within scientific clubs and student's organizations. Additionally, it supports organization of various events, concerts and volunteering.

## E-UNIVERSITY

WI-FI, class schedules and materials, sample documents and applications, information about consultations with lecturers, e-index, e-library, information on internships and traineeships, information about granted scholarships, information about payments.

Foreign students can be given a place in the University's student house. The location of the student house makes it a fantastic base for exploring Lublin. You are a few-minute walk away from the campus to the Old Town, the Lublin Castle as well as shopping malls, restaurants, clubs, bars and banks. The building is located in an area perfectly connected with all parts of Lublin. It is situated near the bus station and there is an MPK stop and a Lublin city bike station just by the building.

Student House has 94 flats with 218 fully equipped and furnished rooms, which can host up to round 300 students/people. The flats for rent include one, two, three or four rooms, placed upon six floors in four staircases in the modern building. We offer single, double and triple rooms. Each flat has its own kitchen or kitchen unit, one or two bathrooms and toilets, common hallway and from 1 to 4 rooms. At our renters disposal we prepared Wi-Fi at standard speed of round 3 mb, with possibility to increase it if required.

The outside the building as well inside on the staircases and elevators is monitored by a dozen cameras and digitally recorded.

The management of the Student house is available in daytime to all our residents and after hours the security staff fulfill such duty.

The building is supervised, monitored and secured round the clock. In the building, a smart key system is used – one key opens either the main door, the door to the apartment, and the door to the room. In order to prevent access of unauthorized people into the building, we have combined monitoring, surveillance and intercom into a coherent system of security. The building is monitored with usage of several cameras with digital recording. Our guests will surely feel safe and comfortable. The property has its own underground parking for guest with cars or bikes. In the down floor we placed the laundry room equipped with professional washing machines and dryers. On the ground floor we offer a common area that can be used as a coffee break room, reading room or a place to study. Students are not obliged to live in the student house, they can also rent private rooms or apartments in the city.

# Career Office

We help students and graduates of WSEI University in conscious management of their careers, active entry and effective functioning on the modern labour market.

The Career Office takes care of professional development of students by traditional counseling services as well as innovative online solutions.

**REACTIVATE** portal supports effective matching of the student's competences with the work placement, apprenticeships or job offers published by employers nationwide.

## THE REACTIVATE PORTAL ENABLES:

- ✗ easy communication among students, employers representatives' and University staff,
- ✗ collecting, processing and analyzing information and documents related to students' traineeships and internships, job placements as well as vocational and educational counseling,
- ✗ analyzing the needs of employers with the scope of the human resources,
- ✗ monitoring of the graduate's career.
